DevOps Engineer | Cloud & Automation Specialist

DevOps Engineer with 4 years’ experience in CI/CD, cloud (AWS & Azure), Docker & Kubernetes, and 2 years PHP/Java development. Spearheaded automated pipelines and multi-environment deployments across 10+ applications, reducing deployment time by 35% and achieving 99.9% uptime. Adept at leading cross-functional teams for scalable, secure, high-performance applications.

Key Skills

Category	Tools & Technologies
CI/CD Tools	GitHub Actions, Jenkins
IaC & Configuration	Terraform, Ansible
Containers	Docker, Kubernetes (basic)
Cloud Platforms	Microsoft Azure, AWS (EC2, RDS)
Scripting Languages	Shell, Bash, Python
Build & Deployment Tools	Maven, Nexus, Apache, Nginx, Tomcat
Monitoring & Security	SonarQube, OWASP, CRON Jobs
Version Control & Tools	Git, GitHub, JIRA
Operating Systems	Linux/Ubuntu, Windows Server
Programming & Web Development	PHP, Java, MySQL, REST APIs

Professional Experience

Application Software Analyst

Accenture Solutions Pvt. Ltd. | Feb 2022 – Present

Project: MHRA (Medicines and Healthcare products Regulatory Agency)

Domain: Healthcare | Team Size: 7

- Spearheaded CI/CD automation using GitHub Actions and Ansible, **reducing deployment time by 35%** and achieving **zero downtime**.
- Migrated legacy Jenkins pipelines to GitHub Actions, enhancing **pipeline efficiency by 30%**.
- Automated patching, system hardening, and vulnerability scanning, reducing security risks by **40%**.
- Deployed and managed Docker containers for multiple isolated workloads, ensuring consistent runtime environments.
- Managed application deployments across Dev, QA, and UAT environments with a **99.9% success rate**.
- Implemented user and permission management across all environments, enhancing operational security.
- Developed and monitored CRON jobs for automated maintenance tasks.
- Recognized with **Accenture ACE Award (FY23)** for exceptional performance and delivery

excellence.

Software Developer

Aelum Consulting Pvt. Ltd. | Feb 2021 – Jan 2022

Project: AMLCC (Anti Money Laundering Compliance Company)

Domain: Finance | **Team Size:** 9

- Developed backend automation tools using Java and MySQL to manage AML claims processing.
- Migrated application workloads to AWS (EC2, RDS), improving performance and scalability.
- Designed and implemented CI/CD workflows using GitHub Actions and Maven, **reducing manual deployments by 50%**.
- Provided QA and production support, ensuring defect-free releases and **24/7 availability**.
- Led technical planning for multiple releases and collaborated with cross-functional teams.
- Awarded **Kudos Award** and **Gem Award** for outstanding contributions.

Software Developer

Ahead Web Soft Technologies Pvt. Ltd. | Jan 2020 – Jan 2021

Project: Booking & Appointment Plugin (Social Engine Platform)

- Developed plugin modules for booking and appointment systems integrated with user dashboards.
- Built automation scripts and deployment pipelines to support scalable rollout of new features.
- Collaborated with UI/UX and QA teams to ensure seamless user experience and performance.

Certifications

- **AWS Certified Solutions Architect – Associate** (Validation No: DC2XCE4CR21Q1L5W)
- **Microsoft Azure Fundamentals (AZ-900)** (Certificate No: 1441-0730)
- **Oracle Cloud Infrastructure 2023 AI Associate**

Awards & Recognition

- Accenture **ACE Award (FY23)** – Excellence in delivery and innovation.
- **Kudos Award & Gem Award (FY21)** – Outstanding performance at Aelum Consulting.
- Consistent appreciation from clients and leadership for **reliability, technical excellence, and proactive ownership**.
