

Sanjay Kumar Ranjan

Expert **Senior Azure DevOps Engineer/Senior Cloud Engineer** with over 4 years of expertise in architecting end-to-end CI/CD solutions.

Experience

April 2024- till present Podtech.io DLF and Udyog Vihar Gurugram Senior DevOps Engineer

Manage a team of 4+ DevOps Engineers. Cloud migrations to Azure. On Premise git server setup. Jenkins Pipeline. Azure board. MIOps. PRTG sensors. Data Center management. Azure Devops pipelines.

2011 - 2016

 **cognizant** Cognizant Manyatha Tech Park Bengaluru

Associate Projects | June 2012 -June 2016

Azure DevOps Engineer with expertise in Build/Release Methodologies, Azure Cloud Technologies, Azure DevOps pipeline creation, and Containerization (AKS, Docker, Docker Swarm). Proficient in crafting CI/CD Architectures to automate deployments using Git, Azure Repos, Azure DevOps, Maven, and Ansible. Engaged in handling production systems in Azure, Cosmos DB, Blob Storage, Azure Functions, and Azure AD B2C.

Programmer Analyst | July 2012 -June 2014

Fulfilled the role of a DevOps Engineer with a focus on optimizing cloud infrastructure, utilizing AWS/Azure services, managing Git repositories on GitHub, operating in RHEL environments, and implementing tools such as S3 for storage.

Proficient in orchestrating build processes, employing configuration management tools, and streamlining continuous integration/continuous deployment (CI/CD) pipelines with Jenkins.

Programmer Analyst Trainee | June 2011- June 2012

Development and maintenance experience in the Consumer Goods and Manufacturing services sector at Philips Healthcare.

Versatile roles include ADM Developer, Consultant, and Analyst, specializing in interface and conversion development to validate and load data from legacy and feeder systems into Oracle Applications.

Proficient in solution design, development, and maintenance using PLSQL and Unix shell scripting in Oracle database 11g and 10g.

Automated production refresh cycles using crontab and adept at crafting SQL queries for SAP BO/BI reports based on customer requirements.

Awards

Received Incredibles Award at Cognizant

Served as Mentor on behalf of IIT Patna to Government of Bihar in trending technologies such as AI.

Hobbies

Pranayama

Achievements

Orchestrated robust CI/CD pipelines, reducing deployment time by 15% and enhancing overall development efficiency, while optimizing cloud infrastructure to achieve 10% cost savings.
